

THE GREAT WAR DEAD

Inner – Dublin South Central

In January 2016 the PPU of Westland Row published a document – “Westland Row - The Revolutionary Years -1914-1922.

The objective was to identify past pupils who had died, or taken part in, the 1916 Rising, The War of independence and the Great War.

A second Volume - The Last Word? is now available. This includes details of some individuals who had been missed out in our original research.

This third volume provides a listing of all the victims of the Great War who could be identified as living in the Parishes of Westland Row, City Quay, Ringsend and Haddington Road. The list covers over 300 individuals. The real number of victims, from an area of one square mile surrounding the school, is probably in excess of 600.

Only half of the Dubliners who died in the conflict left a detailed address - beyond the fact that they came from Dublin.

It has proven very difficult to connect these men to the school as their addresses as adults did not necessarily agree with the relevant addresses when they became pupils as 8 - 10 year olds.

Our hope is that the Register may serve as a source of locating long lost relatives for some of our readers.

We would be delighted to receive any stories or reminiscences.
